## The Educator's Ag Institute (Formerly Ag In the Classroom)

The Butler County Farm Bureau is again sponsoring a teacher to the Agriculture Awareness Foundation of Pennsylvania "Educator's Ag Institute" program.

Teachers K-12 attend the Educator's Ag Institute six-day workshops, held in late July at Penn State University. Factual agriculture information is shared through classes, tours, and many hands-on projects. This six-day workshop supplies the teachers with a network of resources in the agriculture community. They are eligible to earn college credits. Scholarships for the workshop teachers are funded by Butler County Farm Bureau, other County Farm Bureaus, wide variety of farm associations, school districts, individuals, and agri-businesses.

A nationally developed program designed to enhance their knowledge and understanding of the food and fiber system. Agriculture is a vital Pennsylvania industry whose value should be explored and promoted in our schools

# HAS THE MOBILE AG LAB VISITED YOUR SCHOOL?

CONTACT YOUR SCHOOL AND ASK WHY THEY HAVE NOT HAD THE MOBILE AG ED SCIENCE LAB?

MOBILE AGRICULTURE EDUCATION SCIENCE LAB

The **Mobile Ag Ed Science Lab program**, which is administered by Pennsylvania Farm Bureau's (PFB's) non-profit Pennsylvania Friends of Agriculture Foundation, consists of six mobile labs that visits schools across the Commonwealth. Ag Lab teachers provide hands-on experiments (geared toward Kindergarten through eighth grade students) that are not only interactive and fun, but also help schools meet state standards for science, technology, environmental and ecology classes.

With fewer children having a connection to farming, we created the Ag Labs to help teachers educate students about the importance of agriculture.

Since 2003, when the Mobile Agriculture Education Science Lab program began more than 1,000,000 students have been through the labs and participated in Agriculture experiments, hands-on activities learning the importance of agriculture in their everyday lives.

Please contact Charlene Espenshade, Coordinator for the Mobile Ag Ed Science Lab

At 717-574-2223 or email: [cmespenshade@pfb.com](mailto:cmespenshade@pfb.com)

For more information on bringing the lab to your school district

*Are you an inner-city Pittsburgh, Allentown/Bethlehem, Harrisburg/York or Philadelphia city elementary school looking for a unique way to bring science to life for your students?*

***Our Ag on the Go program may be just what you're looking for!***

Our Ag on the Go vehicle arrives at your school, complete with a certified PA teacher and materials, ready to bring agricultural education directly into your school. The regular school classroom is quickly transformed into an interactive science lab where students are immersed in the scientific method...from identifying a problem, to forming a hypothesis, to reaching a conclusion. Agriculture provides the perfect platform for STEM learning to occur...and we optimize that opportunity.

With two curriculum tracks targeting grades 3 through 5, schools can customize the focus of the visit on either the environment or nutrition. In each track, the role of agriculture and its impact on the daily lives of students is highlighted. Each science lesson is designed to not only emphasize a different aspect of agriculture, but also various science concepts. The entire curriculum is aligned with the state standards for Science & Technology and Environment & Ecology.

With students actively engaged, they become excited about scientific discovery and learning in general!

Contact: Pennsylvania Farm Bureau for more information on this program at 717-761-8736.

# Why Farmers Should Become Members

Farm Bureau members are **leading together**. When farmers notice a problem, they want to fix it. Sometimes, the problems are too big for one farmer to fix. The members of Farm Bureau are working together to make real change to advance agriculture in Pennsylvania.

Whether it's easing regulations on high tunnels, changing a law to allow wider equipment on the roads, or making it easier to expand agritourism, we're leading the way forward together. When one member has an idea, thousands of members make it a reality. Join us by becoming a member of Farm Bureau today and take advantage of benefits such as:

- The united voice of Pennsylvania's largest general farm organization advocating for you.
- The opportunity to shape the future of Pennsylvania agriculture through Farm Bureau's grassroots advocacy and policy development. Your membership gives you a voice in shaping Farm Bureau's advocacy
- A chance to network with farmers across the nation and build relationships with elected officials at every level of government.
- Access to important information to help you manage and improve your operation.
- Your share of \$2.5 million in annual savings available through dozens of member benefits as well as local discounts.
- Opportunities to educate consumers about agriculture through initiatives like Ag Literacy Week, the Mobile Ag Lab program, and more than 160 county outreach events.

# Why Everyone Should Become Members

You don't have to be a farmer to be a Farm Bureau member. Farm Bureau members care about the stories behind their food and drink and are dedicated to supporting the farmers who make it all happen. Their membership supports our efforts to preserve the state's agricultural heritage and ensure that family farms can continue to produce local food, grow their communities and promote responsible stewardship of the land and natural resources. At the same time—through *Positively Pennsylvania* magazine—our non-farming members get the inside scoop on farm-to-table cuisine, craft beverages and farm-fresh food right from the people with the most intimate knowledge of Pennsylvania food culture: our state's farmers.

That's in addition to the wide range of benefits that come with Farm Bureau membership—from a major discounts on amusement park tickets to savings on vehicles, utilities, prescription drugs, hotels, car rentals, household supplies and more many more everyday purchases.

Pennsylvania Farm Bureau's mission is simple: Growing Communities. Many Voices. United Vision. We believe that's a cause that everyone—not just farmers—can get behind. Farm Bureau members play an important role in our efforts that extend far beyond agriculture, from our annual charitable campaign to benefit Ronald McDonald House charities to our advocacy to get farm-fresh products into food banks and for rural communities to have access to quality health care, infrastructure and internet access.
